Product overview

IBM® Maximo® Archiving Adapter for InfoSphere® Optim™ Data Growth Solution provides IBM Maximo Asset Management 7.6 users a way to remove historical data from their production system and to store the data in an archive file. After data is archived, you can either view the archive file contents in Maximo Archiving Adapter for InfoSphere Optim Data Growth Solution or you can restore the contents of the file into a reporting database, where the archived objects can be viewed using Maximo Asset Management reports and applications. If necessary, archived data can also be restored back into the production database.
