LEXMARK™

Vivitar®
We make it easy™

The Lexmark® P707 Photo Jetprinter™ is a perfect companion for digital camera users! With the built-in card reader you can download your favorite pictures taken with the Vivitar® ViviCam 3632 Digital Camera and print photo-quality pictures at up to 4800 x 1200 dpi resolution. The Lexmark® P707 Photo Jetprinter™ prints fast - up to 17 ppm black and up to 10 ppm color. You can print a 4" x 6" photo image in about 60 seconds! This Lexmark printer gives you the ability to print borderless photos that look just like traditional photographs.

The compact, feature-packed Vivitar® 3632 ViviCam 2 Megapixel Digital Camera will produce stunning photos with an image resolution of 1600 x 1200! Its 2X digital zoom is complemented with macro capability. Images may be reviewed on the 1.6" LCD display. In addition to outstanding images, this Vivitar® digital camera also has a recording mode for video clips and video playback (TV-Out). This Vivitar® digital camera has 16MB of internal memory and includes an 8MB SD card so you can take the card out and print directly from your Lexmark® Photo Jetprinter™. The 10-second self-timer and auto flash features make it easy to include everyone in all of your pictures!
