

Communicate through Digital Signage.

ViewSonic's 42" ND4210w HD LCD Network Display features an integrated media player so it's ready to use right out of the box. An INTEGRATED WEB BROWSER with Flash® plug-in, standalone Flash player, high-definition video player and 40 GB hard drive let you stream standard or high-definition video for digital signage applications. The integrated media player supports multicast and unicast digital broadcast applications throughout a building, across a large business or educational campus and even across the country. This cost-effective solution ELIMINATES THE NEED FOR LOCAL PCs TRADITIONALLY REQUIRED for delivering video content over an IP network. The ND4210w is an ideal solution for retail, hospitality, transportation, health clubs, medical centers and any business needing to communicate with a divergent customer and employee population.

ND4210w

42" HD LCD NETWORK DISPLAY

WITH INTEGRATED INTERNET
PROTOCOL (IP) NETWORKING

NO PC NEEDED FOR DYNAMIC DIGITAL SIGNAGE

- > **Fully integrated IP enabled display provides easy network connection without a dedicated PC**
Address and control display from anywhere via the Internet eliminating the need for an external PC or expensive video splitters and converters.
- > **Easy audio video steaming with content-rich video and graphics**
Display dynamic and captivating content with the included Macromedia Flash 6. Decodes MPEG-1/2/4, audio/video formats. Precision digital audio for rich multimedia experience with optional detachable speakers sold separately.
- > **Easy installation and simplified cabling**
Connect multiple units together for even easier cabling and installation with loop through RJ-45 connections. Dual USB ports support loading content locally.
- > **Lower total cost of ownership (TCO)**
Eliminates local PC; simplified cabling and installation; easy-to-use software; remotely controlled, and higher reliability than Windows-based PC systems.
- > **Commercial display solutions by ViewSonic**
Customizable displays are specifically designed for point-of-sale advertisements, public information, training, menu boards, corporate communications and remote education.
- > **Infrastructure is fully compatible with Cisco networks for robust performance**
